

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

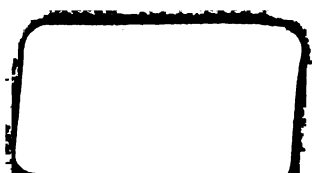

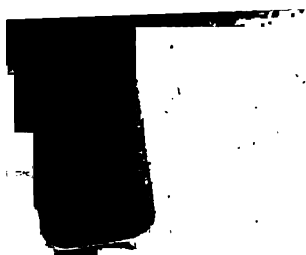

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. II. EVENING SCHOOL FOR INDUSTRIAL FOREMEN.

Under the Auspices of the Massachusetts Institute of Technology.

In the place of the Advanced Courses formerly given under the auspices of the Massachusetts Institute of Technology, the Trustee of the Lowell Institute has established a Free Evening School for Industrial Foremen, comprising at present two Courses, one Mechanical, the other Electrical, each extending over two years.

These are intended to bring the systematic study of applied science within the reach of young men who are following industrial pursuits and desire to fit themselves for higher positions, but are unable to attend day courses of instruction.

The work of the school includes recitations, lectures, drawing-room practice, and laboratory exercises, and is given by members of the instructing staff of the Institute of Technology. Text-books are used in many of the subjects, but in some cases printed notes are supplied at cost. Students

are expected to purchase such text-books, note-books, instruments, and other material as may be recommended or required.

No reports of standing will be given to students, but those who fail to keep well up with the work, or to profit sufficiently by the instruction, will be informed that they are not qualified to pursue the Course with advantage. To those who satisfactorily complete the required Courses of the two years and pass the examinations certificates will be given.

The present school year began October 3, 1904, and will close May 12, 1905. Attendance from 7.30 to 9.30 for three or four evenings a week will be required, in addition to outside study. The entrance examinations are, in a measure, of a competitive nature, and considerable weight will be attached to the applicant's occupation and practical experience.

The school is open to those only who are ambitious and willing to study. The character and amount of the instruction is such that, if the student is not well fitted to take up the work of the school, it will not be possible for him to derive full benefit from it, or perhaps to maintain his standing.

A circular giving detailed information regarding the entrance examinations and other requirements may be obtained by sending a stamped, addressed envelope to Prof. Charles F. Park, Director, Lowell Institute Free Evening School for Industrial Foremen, Massachusetts Institute of Technology, Boston.

III. TEACHERS' SCHOOL OF SCIENCE.

Under the Auspices of the Boston Society of Natural History.

Free Lectures maintained by the Lowell Institute in the Teachers' School of Science of the Boston Society of Natural History will be given during the season as follows:—

1. Field Lessons in Botany, by Mr. Hollis Webster.
2. Field Lessons in Zoölogy, by Mr. Albert P. Morse.
3. Field Lessons in Geology, by Prof. George H. Barton.
4. Laboratory Lessons in Botany, by Mr. Hollis Webster.
5. Laboratory Lessons in Zoölogy, by Mr. Albert P. Morse.
6. Laboratory Lessons in Geology, by Prof. George H. Barton.
7. Courses in Chemistry and Physics (under certain conditions).
8. A Course of Lectures by Specialists in Physics, Geology, Geography, etc.

The Field Lessons will be given in the spring and autumn. The Laboratory Lessons will be given in the winter, beginning on November 19.

Further particulars, with instructions how to obtain admission, may be obtained by sending a stamped, addressed envelope to the Curator, Teachers' School of Science, Boston Society of Natural History, 234 Berkeley St., Boston.

IV. EVENING COURSES FOR WORKINGMEN.

Under the Auspices of the Wells Memorial Institute.

Free Instruction, especially arranged for workingmen, will be maintained by the Lowell Institute during the winter under the auspices of the Wells Memorial Institute, as follows:—

1. On Practical Electricity. Twenty lectures for Beginners. By Prof. William L. Puffer.

2. On Mechanical Drawing. Twenty lectures for Beginners. By Mr. Harrison W. Hayward.

3. On Machine Drawing. Twenty lectures for Advanced Students. By Mr. Harrison W. Hayward.

**FREE PUBLIC LECTURES IN THE
CITY OF BOSTON
TO BE GIVEN IN THE
LOWELL INSTITUTE.**

(Founded in 1836 by John Lowell, Jr., and Established in 1839.)

Programme for 1904-1905.

The Trustee of the Lowell Institute under the will of John Lowell, Jr., maintains annually in the City of Boston various Courses of Free Public Lectures. For the present — the sixty-sixth — season, four distinct Series are provided to all of which Admission is Free (but only under certain conditions), as follows: —

- I. Public Lectures, — in Huntington Hall, 491 Boylston Street.
- II. School for Industrial Foremen, — under the Auspices of the Massachusetts Institute of Technology.
- III. Teachers' School of Science, — under the Auspices of the Boston Society of Natural History.
- IV. Courses for Workingmen, — under the Auspices of the Wells Memorial Institute.

Further information in regard to the several Courses is given below.

A. LAWRENCE LOWELL, *Trustee.*

W. T. SEDGWICK, *Curator.*

I. PUBLIC LECTURES IN HUNTINGTON HALL.

Lowell Institute Lectures, open to the public, will be given this year, as in recent years, in Huntington Hall, Rogers Building, 491 Boylston Street, Boston. The several Courses will be announced in advance, with full particulars, in the Monthly Bulletin of the Boston Public Library and in the advertising columns of the Boston Evening Transcript.

Admission to all Lectures of the Lowell Institute is Free, but only by ticket and under certain conditions. The number of tickets is limited by the capacity of the Hall.

Method of Ticket Distribution.

For instructions for securing tickets see October or November Bulletin.

The Eighth Course will be eight lectures by Thomas R. Lounsbury, LL.D., L.H.D., Professor of English in Yale University, on English Literature in the First Half of the Nineteenth Century.

Friday evenings (only) in February, at 8 o'clock.

The Ninth Course will be ten lectures by William T. Sedgwick, Ph.D., Professor of Biology and Director of the Sanitary Research Laboratory and Sewage Experiment

Station at the Massachusetts Institute of Technology, on *The Sanitation of Cities.*

Mondays and Thursdays, Feb. 2, 6, 9, at 8 p. m.

The Tenth Course will be eight lectures by George F. Moore, D.D., LL.D., Professor in Harvard University, on *Judaism at the Beginning of the Christian Era.*

Mondays and Thursdays at 8 p. m., beginning Monday, February 20.

The Eleventh Course will be six lectures by Thomas Wentworth Higginson, LL.D., on *English Literature in the Last Half of the Nineteenth Century.*

Tuesdays and Fridays at 8 p. m., beginning Tuesday, February 28.

II. EVENING SCHOOL FOR INDUSTRIAL FOREMEN.

Under the Auspices of the Massachusetts Institute of Technology.

In the place of the Advanced Courses formerly given under the auspices of the Massachusetts Institute of Technology, the Trustee of the Lowell Institute has established a Free Evening School for Industrial Foremen, comprising at present two Courses, one Mechanical, the other Electrical, each extending over two years.

These are intended to bring the systematic study of applied science within the reach

of young men who are following industrial pursuits and desire to fit themselves for higher positions, but are unable to attend day courses of instruction.

The work of the school includes recitations, lectures, drawing-room practice, and laboratory exercises, and is given by members of the instructing staff of the Institute of Technology. Text-books are used in many of the subjects, but in some cases printed notes are supplied at cost. Students are expected to purchase such text-books, note-books, instruments, and other material as may be recommended or required.

No reports of standing will be given to students, but those who fail to keep well up with the work, or to profit sufficiently by the instruction, will be informed that they are not qualified to pursue the Course with advantage. To those who satisfactorily complete the required Courses of the two years and pass the examinations certificates will be given.

The present school year began October 3, 1904, and will close May 12, 1905. Attendance from 7.30 to 9.30 for three or four evenings a week will be required, in addition to outside study. The entrance examinations are, in a measure, of a competitive nature, and considerable weight will be attached to the applicant's occupation and practical experience.

The school is open to those only who are ambitious and willing to study. The character and amount of the instruction is such that, if the student is not well fitted to take up the work of the school, it will not be possible for him to derive full benefit from it, or perhaps to maintain his standing.

A circular giving detailed information regarding the entrance examinations and other requirements may be obtained by sending a stamped, addressed envelope to Prof. Charles F. Park, Director, Lowell Institute Free Evening School for Industrial Foremen, Massachusetts Institute of Technology, Boston.

III. TEACHERS' SCHOOL OF SCIENCE.

Under the Auspices of the Boston Society of Natural History.

Free Lectures maintained by the Lowell Institute in the Teachers' School of Science of the Boston Society of Natural History will be given during the season as follows:—

1. Field Lessons in Botany, by Mr. Hollis Webster.

2. Field Lessons in Zoölogy, by Mr. Albert P. Morse.

3. Field Lessons in Geology, by Prof. George H. Barton.

4. Laboratory Lessons in Botany, by Mr. Hollis Webster.

5. Laboratory Lessons in Zoölogy, by Mr. Albert P. Morse.

6. Laboratory Lessons in Geology, by Prof. George H. Barton.

7. Courses in Chemistry and Physics (under certain conditions).

8. A Course of Lectures by Specialists in Physics, Geology, Geography, etc.

The Field Lessons will be given in the spring and autumn. The Laboratory Lessons will be given in the winter, beginning on November 19.

Further particulars, with instructions how to obtain admission, may be obtained by sending a stamped, addressed envelope to the Curator, Teachers' School of Science, Boston Society of Natural History, 234 Berkeley St., Boston.

IV. EVENING COURSES FOR WORKINGMEN.

Under the Auspices of the Wells Memorial Institute.

Free Instruction, especially arranged for workingmen, will be maintained by the Lowell Institute during the winter under the auspices of the Wells Memorial Institute, as follows:—

1. On Practical Electricity. Twenty lectures for Beginners. By Prof. William L. Puffer.

2. On Mechanical Drawing. Twenty lectures for Beginners. By Mr. Harrison W. Hayward.

3. On Machine Drawing. Twenty lectures for Advanced Students. By Mr. Harrison W. Hayward.

4. On Practical Mechanics. Twenty lectures. By Mr. Harrison W. Hayward.

5. On Steam and Steam Engines. Twenty lectures for Beginners and Advanced Students. By Mr. Thomas Hawley.

6. On Household Science, Cookery, etc. Fifteen lectures by Miss Anna Barrows.

Further particulars, with instructions how to obtain admission, may be obtained by sending a stamped, addressed envelope to the Secretary, Lowell Free Courses, Wells Memorial Institute, 985 Washington Street, Boston.

A. LAWRENCE LOWELL, *Trustee*.

W. T. SEDGWICK, *Curator*.

I. PUBLIC LECTURES IN HUNTINGTON HALL.

Lowell Institute Lectures, open to the public, will be given this year, as in recent years, in Huntington Hall, Rogers Building, 491 Boylston Street, Boston. The several Courses will be announced in advance, with full particulars, in the Monthly Bulletin of the Boston Public Library and in the advertising columns of the Boston Evening Transcript.

Admission to all Lectures of the Lowell Institute is Free, but only by ticket and under certain conditions. The number of tickets is limited by the capacity of the Hall.

Method of Ticket Distribution.

For instructions for securing tickets see October or November Bulletin.

The Tenth Course will be eight lectures by George F. Moore, D.D., LL.D., Professor in Harvard University, on **Judaism at the Beginning of the Christian Era**.

Mondays and Thursdays at 8 p. m., beginning Monday, February 20.

The Eleventh Course will be six lectures by Thomas Wentworth Higginson, LL.D., on **English Literature in the Last Half of the Nineteenth Century**.

Tuesdays at 8 p. m., beginning Tuesday, February 28.

II. EVENING SCHOOL FOR INDUSTRIAL FOREMEN.

Under the Auspices of the Massachusetts Institute of Technology.

In the place of the Advanced Courses formerly given under the auspices of the Massachusetts Institute of Technology, the

Trustee of the Lowell Institute has established a Free Evening School for Industrial Foremen, comprising at present two Courses, one Mechanical, the other Electrical, each extending over two years.

These are intended to bring the systematic study of applied science within the reach of young men who are following industrial pursuits and desire to fit themselves for higher positions, but are unable to attend day courses of instruction.

The work of the school includes recitations, lectures, drawing-room practice, and laboratory exercises, and is given by members of the instructing staff of the Institute of Technology. Text-books are used in many of the subjects, but in some cases printed notes are supplied at cost. Students are expected to purchase such text-books, note-books, instruments, and other material as may be recommended or required.

No reports of standing will be given to students, but those who fail to keep well up with the work, or to profit sufficiently by the instruction, will be informed that they are not qualified to pursue the Course with advantage. To those who satisfactorily

complete the required Courses of the two years and pass the examinations certificates will be given.

The present school year began October 3, 1904, and will close May 12, 1905. Attendance from 7.30 to 9.30 for three or four evenings a week will be required, in addition to outside study. The entrance examinations are, in a measure, of a competitive nature, and considerable weight will be attached to the applicant's occupation and practical experience.

The school is open to those only who are ambitious and willing to study. The character and amount of the instruction is such that, if the student is not well fitted to take up the work of the school, it will not be possible for him to derive full benefit from it, or perhaps to maintain his standing.

A circular giving detailed information regarding the entrance examinations and other requirements may be obtained by sending a stamped, addressed envelope to Prof. Charles F. Park, Director, Lowell Institute Free Evening School for Industrial Foremen, Massachusetts Institute of Technology, Boston.

CURRENT LIBRARY NEWS.

The following reading rooms have been opened: Boylston Station Reading Room, Depot Square, Boylston Station, on April 3; Allston Reading Room, 354 Cambridge St., Allston, on April 17; Warren St. Reading Room, 390 Warren St., on April 26. These reading rooms are to take the places

of the shop stations T, G, and R.

Station N, Mt. Pleasant Reading Room, has been moved to larger quarters on the main floor of the same building.

Station L, North Brighton Reading Room, has been permanently discontinued.

RULES AND REGULATIONS.

The following lines contain a brief summary of the rules governing the use of the Library, the full text of which in pamphlet form may be had free. Every user of the Library is expected to be familiar with them.

The Library is free to all at seasonable hours.

Citizens, Students, Temporary Sojourners, Officers and men of the Army and Navy, and certain other persons may become Card Holders. Special privileges are granted also to Teachers and Clergymen, and Loans are made upon Deposit.

Application made in writing, with Reference, or Student's Certificate secures a Library Card entitling the holder to draw books. Card Holders must notify Registration Clerk of change of address. Cards are non-transferable and revokable, and registration may be cancelled. Lost cards entail penalty; responsibility continues. Cards must be presented and stamped regularly with each book drawn or returned.

Cards entitle the holder to two books for seven or fourteen days without renewal. Books are not transferable. There are limitations governing the issue of Seven-day books.

There are restrictions upon the lending for Home Use of certain books.

Any person may use books within the Library upon signing the proper form of application, promising to return them before leaving the room.

Fines of two cents a day and twenty-five cents per two weeks extra, for four weeks, and the full cost of replacing books, with loss of privileges until paid, are the penalty for overdetection. No exemption is granted. Further detention is punishable by law.

Books must be used with care and all damage made good. Violations of this rule are punishable by fine and imprisonment.

Books must be returned when called for and are to be taken from the shelves only by employees.

Conversation and other abuses are forbidden under penalty of expulsion. Damage to Catalogues is punishable. Attendants must enforce the rules but may be reported for incivility.

The Central Library is open daily except holidays, from 9 A.M. till 10 P.M., Sundays, from 2 till 10 P.M., except that the summer closing hour is 9 P.M. both on week days and Sundays. The Branches are open at the hours posted therein.

HOUSE RULES.

A Coat Room is provided where garments and packages may be checked.

Dogs and Smoking are not allowed in the Building.

Employees are not, except in emergency, allowed to receive visitors during working hours.

If articles are lost or found in the Library Building the fact should be reported immediately to the Officer in charge of the Issue Department.

**FREE PUBLIC LECTURES IN THE
CITY OF BOSTON
TO BE GIVEN IN THE
LOWELL INSTITUTE.**

(Founded in 1836 by John Lowell, Jr., and Established in 1890.)

PROGRAMME FOR 1905-1906.

The Trustee of the Lowell Institute under the will of John Lowell, Jr., maintains annually in the City of Boston various Courses of Free Public Lectures. For the present — the sixty-seventh — season, four distinct Series are provided, to all of which Admission is Free (but only under certain conditions), as follows: —

- I. **Public Lectures**, — in Huntington Hall, 491 Boylston Street.
- II. **School for Industrial Foremen**, — under the Auspices of the Massachusetts Institute of Technology.
- III. **Teachers' School of Science**, — under the Auspices of the Boston Society of Natural History.
- IV. **Courses for Workingmen**, — under the Auspices of the Wells Memorial Institute.

A. LAWRENCE LOWELL, Trustee.

W. T. SEDGWICK, Curator.

I. PUBLIC LECTURES IN HUNTINGTON HALL.

Lowell Institute Lectures, open to the public, will be given this year, as in recent years, in Huntington Hall, Rogers Building, 491 Boylston Street, Boston. The several Courses will be announced in advance, with full particulars, in the Monthly Bulletin of the Boston Public Library, and in the advertising columns of the Boston Evening Transcript.

Admission to all Lectures of the Lowell Institute is Free, but only by ticket and under certain conditions. The number of tickets is limited to the capacity of the Hall.

Method of Ticket Distribution.

Tickets will be distributed to the public, free of charge, as follows: —

Admission tickets to the first Lecture of each Course will be mailed, one to each applicant, in the order of application, and until the supply is exhausted, to all persons applying by letter more than two days before the beginning of any Course, to the Curator of the Lowell Institute, 491 Boylston Street, Boston, and enclosing a stamped, addressed envelope.

Persons desiring to secure tickets for more than one Course must send a separate stamped, addressed envelope for each ticket and each Course. All such envelopes will be filled or placed on file, but, in general,

no tickets for any Course will be mailed to applicants until a few days before that Course begins. Not more than one ticket will ordinarily be sent to any applicant.

On and after the day on which a Course begins, any tickets left over for that Course may be obtained from the Janitor of the Lowell Institute, at 491 Boylston Street, between the hours of 10 and 12 A. M. and 2 and 4 P. M.; or by sending to the Curator, with a specific request for such left-over tickets, a stamped, addressed envelope.

No tickets will be distributed at the Cadets' Armory; and no tickets will be given out by the Janitor of the Lowell Institute for any Course before the day on which that Course begins.

All persons attending the first Lecture of any Course may, just before entering the Hall, exchange their Admission tickets to the first Lecture for tickets good for the entire Course, which, as far as possible under the following arrangement, will entitle them to reserved seats: —

In order to make the distribution fair, and to avoid a rush for the best seats, all Course tickets are placed beforehand in envelopes, some containing one ticket good for one reserved seat; some containing two or more tickets good for adjoining reserved seats; and (if the demand for tickets to the first lecture exceeds the number of reserved seats) some containing Course tickets good for admission only. The envelopes are then thoroughly shuffled, and at the first Lecture of any Course all who desire to do so

may exchange their first-lecture Admission tickets, at tables in the vestibule, for envelopes (shuffled as above described) containing Course tickets generally good for reserved seats.

Persons wishing to sit together may, by surrendering at the same time their first-lecture Admission tickets, obtain envelopes containing Course tickets for adjoining seats.

The exchange above described will begin at 7.15 P. M., and at 7.55 A. M. all exchange of Admission tickets for Course tickets will cease. Persons arriving after this time, but before the doors are closed, may still obtain admission to the Hall.

A limited number of persons having no tickets of any kind may, as heretofore, obtain admission to the Hall (and often good seats) by waiting in line in the vestibule, at the foot of the stairs.

Persons obtaining tickets which they afterwards find they cannot use are requested to return them promptly to the Curator or the Janitor, for the benefit of other applicants.

A History of the Lowell Institute, by Harriette Knight Smith, giving a complete list of the Lectures in previous years, the subjects of their lectures, etc., was published in 1898.

The First Course will be six lectures by George William Knox, D.D., LL.D., Professor of the History and Philosophy of Religion in Union Theological Seminary, New York City, on **The Development of Religion in Japan**. I. The Primitive Beliefs and Rites: natural religion. II. Shinto, the Way of the Gods: natural religion. III. The Conversion to Buddhism: supernatural religion. IV. The Development of Buddhism: supernatural religion. V. Confucianism, as Polity and Morals: ethical religion. VI. Confucianism as the World Order: ethical religion.

Mondays and Thursdays at 8 P. M., beginning Monday, October 16.

The Second Course will be four lectures by James Ford Rhodes, LL.D., on **Reconstruction and Negro Suffrage**.

Tuesdays and Fridays at 8 P. M., beginning Tuesday, October 17.

The Third Course will be four lectures by Barrett Wendell, Professor of English in Harvard University, on **The National Ideals of America**.

Tuesdays and Fridays at 8 P. M., beginning Tuesday, October 31.

II. FREE EVENING SCHOOL FOR INDUSTRIAL FOREMEN.

Under the Auspices of the Massachusetts Institute of Technology.

The Trustee of the Lowell Institute has established in the Institute of Technology a Free Evening School for Industrial Foremen, comprising at present two Courses, one Mechanical, the other Electrical, each extending over two years.

These are intended to bring the systematic study of applied science within the reach of young men who are following industrial pursuits and desire to fit themselves for higher positions, but are unable to attend day courses of instruction.

The work of the school includes recitations, lectures, drawing-room practice, and laboratory exercises, and is given by members of the Faculty of the Institute of Technology. Text-books are used in many of the subjects, but in some cases printed notes are supplied at cost. Students are expected to purchase such text-books, note-books, instruments, and other material as may be recommended or required.

No reports of standing are given to students, but those who are failing to keep well up with the work, or to profit sufficiently by the instruction, will be informed that they are not qualified to pursue the Course with advantage. To those who satisfactorily complete the required Courses of the two years, and pass the examinations, certificates are given.

The present school year began October 2, 1905. Attendance from 7.30 to 9.30 for three or four evenings a week is required, in addition to outside study. The entrance examinations are, in a measure, of a competitive nature, and considerable weight is attached to the applicant's occupation and practical experience.

The school is open to those only who are ambitious and willing to study. The character and amount of the instruction is such that, if the student is not well fitted to take up the work of the school, it will not be possible for him to derive full benefit from it, or perhaps to maintain his standing.

A circular giving detailed information regarding the entrance examinations and other requirements may be obtained by sending a stamped, addressed envelope to

the Director, Lowell Institute Free Evening School for Industrial Foremen, Massachusetts Institute of Technology, Boston.

III. TEACHERS' SCHOOL OF SCIENCE.

Free Lectures maintained by the Lowell Institute in the Teachers' School of Science will be given during the season as follows:—

Under the Auspices of the Boston Society of Natural History.

1. Field Lessons in Botany, by Mr. Hollis Webster.
2. Field Lessons in Zoology, by Mr. Albert P. Morse.
3. Field Lessons in Geology, by Prof. George H. Barton.
4. Laboratory Lessons in Botany, by Mr. Hollis Webster.
5. Laboratory Lessons in Zoology, by Mr. Albert P. Morse.
6. Laboratory Lessons in Geology, by Prof. George H. Barton.
7. A course of Lectures by Specialists in Physics, Geology, Geography, etc.

The Field Lessons will be given in the spring and autumn. The Laboratory Lessons will be given in the winter, beginning on November 18.

8. Lectures and Laboratory Lessons in Electrical Measurements, under the direction of Prof. H. E. Clifford.

The Electrical Engineering Department of the Massachusetts Institute of Technology will give, for Physics teachers, twenty lectures on the generation and distribution of power by direct currents, together with fifteen exercises of three hours each in certain related laboratory work. The lectures will include a discussion of the magnetic and electric currents, measuring instruments, their construction, calibration and use, generators and motors, and methods for testing them, and a brief description of systems for distributing power by direct currents. The laboratory work is designed to illustrate and enforce the principles explained in the lectures, and will include tests of electrical machinery and also certain work in the standardizing laboratory.

For the laboratory courses the number is limited to twenty-five.

Further particulars, with instructions how to obtain admission, may be obtained by sending a stamped, addressed envelope to the Curator, Teachers' School of Science, 234 Berkeley Street, Boston.

IV. EVENING COURSES FOR WORKINGMEN.

Under the auspices of the Wells Memorial Institute.

Free Instruction, especially arranged for

workingmen, will be maintained by the Lowell Institute during the winter under the auspices of the Wells Memorial Institute, as follows:—

1. On Practical Electricity. Twenty lectures for beginners. By Prof. William L. Puffer.

2. On Mechanical Drawing. Twenty lectures for Beginners. By Mr. Harrison W. Hayward.

3. On Machine Drawing. Twenty lectures for Advanced Students. By Mr. Harrison W. Hayward.

4. On Practical Mechanics. Twenty lectures. By Mr. Harrison W. Hayward.

5. On Steam and Steam Engines. Twenty lessons for Beginners and Advanced Students. By Mr. Thomas Hawley.

6. On Household Science, Cookery, etc. Fifteen lectures by Miss Anna Barrows.

Further particulars, with instructions how to obtain admission, may be obtained by sending a stamped, addressed envelope to the Secretary, Lowell Free Courses, Wells Memorial Institute, 985 Washington Street.
